

Implementing the Matik App for Salesforce

Never have to leave Salesforce to generate data-driven content

Implementation Process

Time Needed

Make sure that your Matik & Salesforce admins work on this together

30
minutes

of Salesforce admin time

App Requirements

✔ **Salesforce admin** For setup
with permissions to install application packages and configure Salesforce objects and layouts

✔ **Active Matik admin or end user seat**

✔ **Matik admin** For setup
with access to all dynamic content, inputs, and templates

✔ **Salesforce Lightning**
