What our Clients say

We are honored to be a part of their success stories.

"I had the pleasure of working with Haroon Chaudhry at Innovadel Technologies, earlier in the year as we built a Salesforce Commerce connector to help our clients go live with the Reevo solution. Right from the get go, Haroon was very professional with the planning of the project along with timelines and scope. There were times during the project where the features had to be tweaked and Haroon was very open to working closely with us to resolve the open issues. All in all, the connector was built and QA'd at a high quality level and delivered on time. I'd recommend Innovadel Technologies to others looking to build a Salesforce Commerce connector and would not hesitate to use their services again for future projects."

Deepak Janakiraman, VP Product, Reevo

"Yotpo decided to develop an integration with Salesforce Commerce to support the increasing demand of companies that wish to use our Customer Marketing platform. We didn't have certified developers for Salesforce Commerce, and we thought to outsource the development and maintenance of this integration. I was connected to Innovadel through a friend that has worked with them and was super happy. We kicked off the project with an assessment of price and effort, and everything was done very smoothly. Throughout the development process, there was constant communication between Yotpo and Innovadel, to solve issues that arouse and so on. I must say that I have worked with many outsources in my professional life, and the availability and willingness to accommodate our needs were exceptional with Innovadel. Another key thing to note is how professional the cartridge was. It was deployed for one of our biggest customers and worked like right out of the box. We were very happy, and definitely highly recommend Innovadel services."

Omri Cohen, CTO, Yotpo

"Haroon and the Innovadel team have been an incredible partner for Riskified. We brought on Innovadel to assist our team with the development of our Salesforce Commerce cartridge and have been extremely impressed with their professionalism, responsiveness and most of all quality work at a great price. I highly recommend Haroon."

Andy Freedman, Marketing, Riskified
