

If you're looking to build
an online store that

A:
Looks amazing

B:
Is easy to maintain,
modify, and integrate

C:
Won't blow your
budget

You've come to the right place.

Linvio eStore is a digital commerce solution helping businesses like yours use Salesforce to build custom-branded online stores without breaking the bank.

You don't have to be a major online retailer or full-scale eCommerce company to appreciate the value of a good online store.

Customers expect to be able to make purchases, get help, and access account details online. And it's in your best interest to meet their expectations with an online presence (and store) that functions smoothly and looks great.

But what if you just want to occasionally sell limited-edition merchandise? Or allow customers to renew subscriptions and order refills online? Or add online training and services to your existing business model?

You could go with an affordable but hard-to-integrate option like Shopify. Or a platform like Commerce Cloud that integrates with Salesforce but requires a big investment + plus special expertise to get going.

Or you can check out Linvio eStore. It's a Salesforce-native digital commerce solution that allows you to quickly create and run branded, professional, fully-functioning websites & online stores using your existing Salesforce solution.

Linvio eStore gives you access to all the features customers love about our stand-alone Linvio Payments solution + added eCommerce functionality.

With Linvio Payments + eStore, you can use Salesforce to:

-  Build a fully-functional online store in hours vs. days or weeks
-  Customize store design & branding with Experience Builder
-  Add and edit products and services
-  Allow one-time & recurring online purchases
-  Create self-service subscriptions & customer portals
-  Securely view transaction & payment data in Salesforce
-  Access customer purchase & payment history in Salesforce
-  Build automatic workflows triggered by online order status
-  Notify customers about new product launches and special offers

That's a long list, so here's the main takeaway:

If you're interested in getting more value from Salesforce and improving your digital commerce capabilities, Linvio eStore is the solution for you.

This combination of functionality, flexibility, security, and affordability simply doesn't exist anywhere else.

Linvio eStore Pricing

Linvio eStore is an add-on to our core Linvio Payments solution. Pricing for Linvio Payments Essentials starts at \$450 per month for 10 users, excluding gateway processing fees associated with LinvioPay transactions.

Additional cost for Linvio eStore starts at \$200/month. Salesforce Experience Cloud licenses are required to enable features like account creation and self-service customer portals.
