

Easy. Secure. Reliable.

Salesforce Payments Done Right.

Everyone needs to collect money. It doesn't matter if you're selling software or t-shirts, furniture or medical devices, organic dog treats or investment advice – if you want to run a successful business, you have to collect and manage payments.

For most businesses, this involves a complex process of preparing quotes, sending invoices, accepting payments, processing payments, tracking payments, and chasing down missed payments. There are multiple steps, systems, and people involved – and multiple ways the whole thing can go wrong.

But it doesn't have to be that way. Linvio's Salesforce-native products take the hassle out of getting paid by making it as easy as possible to accept money anywhere, anytime, or any way you want.

Linvio Payments

Our core product helps you use Salesforce to get paid faster, streamline sales & finance operations, and provide a better experience for your customers.

Imagine being able to do all this without ever leaving Salesforce:

Send custom payment links

Accept & manage one-time and recurring payments

Create and send custom branded quotes & invoices

Request e-signatures & track approvals

View customer payment history

Awesome, right? It gets better.

LinvioPay

Linvio Payments includes LinvioPay, our world-class payment gateway and processing technology. LinvioPay significantly lowers your payment processing costs and boosts security and helps your business run more efficiently.

Linvio Payments Add-ons

Our powerful Linvio Payments add-ons help you get even more value from your Salesforce investment.

Our one-of-a-kind **Linvio eStore** solution includes all the functionality you need to create custom-branded eCommerce websites using Salesforce – without the need to invest in Commerce Cloud or B2B Commerce.

Corporate events? Non-profit fundraisers? Free workshops? Paid classes? **Linvio Events** does it all with flexible features designed to make it easy to create events, manage registration, and give your attendees the fantastic experience they expect.

Request, accept, manage, and track donations more efficiently with **Linvio Donations** for non-profits and higher-ed institutions.

We pride ourselves on our security, reliability, and excellent customer support, but you don't have to take our word for it.

Here's what some of our customers have to say about Linvio.

"Linvio has been our payment solution for almost 10 years, and we're very happy with the product. It integrates well and allows us to keep all payment-related systems and processes functioning under one platform."

- P. Brooks

"My company has been with Linvio since 2011. Linvio provides us with exactly what we need and when we have questions or issues they have been proactive in helping to resolve them. They are also very honest about what they think works best for us instead of trying to upsell us on things we might not need. **I would absolutely recommend them.**"

- A. Pacer
