

Tired of chasing late payments and jumping through hoops to send invoices? How about trying to manage different payment types or signing in and out of multiple systems to find customer payment details?

Meet Linvio Payments – the hassle-free Salesforce payments solution helping businesses like yours save time, sell smarter, and get paid faster.

Your Sales, Marketing & Customer Success teams spend a lot of time in Salesforce.

It's the central hub for following up with leads, tracking opportunities, collecting customer data, analyzing sales and service trends, forecasting & reporting, and all sorts of other vital business activities.

There's just one thing missing: payments.

You can use Salesforce to close deals faster and keep customers happier, but there's no built-in functionality to help you request, accept, manage, or track payments.

That's where Linvio Payments comes in. Our Salesforce-native solution makes life easier for RevOps teams – and helps you get more ROI from your Salesforce investment – by making it possible for you to securely request, accept, process, and track payments without leaving Salesforce.

With Linvio Payments, you can use Salesforce to:

 Quickly send branded quotes & invoices

 Share custom online payment links

 Accept payments over the phone

 Request & collect one-time payments

 Manage recurring payments & subscriptions

 Set up and manage installment plans

 View customer payment history alongside other data

 Request e-signatures

 Track contract approvals

 Build automatic workflows triggered by payment status

Linvio Payments includes LinvioPay, our revolutionary payment gateway and processing technology.

LinvioPay comes standard with all Linvio Payments packages and allows you to:

- **Accept payments in over 135 currencies and 25+ countries**
- **Automatically detect & block fraudulent payments**
- **Securely view payment and transaction data in Salesforce**
- **Decrease your overall payment processing time & cost**
- **Streamline your payment management tech stack & vendor list**

We like to say:

**Linvio Payments + LinvioPay =
Salesforce Payments
Done Right**

And our customers tend to agree. Here's a quote from a recent 5-star AppExchange review:

"We have been using Linvio for over 10 years. They integrate well and help us keep more data connected to our account records in Salesforce. Plus, they save our team time in requesting and processing payments. It's a winning solution for those looking to expand on their Salesforce platform capabilities."

- J. Reckers

Linvio Payments + LinvioPay Pricing

Pricing for Linvio Payments Essentials starts at \$450 per month for 10 users.

LinvioPay is included with all Linvio Payments packages. No additional subscription is required for LinvioPay, although gateway processing fees apply to LinvioPay transactions.

Ask our Sales team about our **Linvio Payments Starter and Premium Packages** and our powerful Linvio Payments add-ons **Linvio eStore, Linvio Events & Linvio Donations**
