

Oktana, a Salesforce Summit Consulting Partner, with 300+ nearshore and onshore resources ready to configure, build and integrate any application or system.

Why Oktana

Time Zone & Cultural Overlap. 90% of our team is based in Latin America and bilingual with a generous overlap across time zones. We work smooth as one team and enjoy sharing the uniqueness of each of our 7 countries.

Flexible. From billing on a Time & Materials basis to ensuring you approve your team's PTO requests, we provide seamless flexibility. We are happy to start with projects of any size with 100% Agile processes.

Growth. We continuously train to expand our knowledge of languages, frameworks and Salesforce technologies to enable your innovation. Our training team and internal incubator program prepare our team to scale.

Trust. We are SOC 2 certified and maintain a rigorous compliance program to ensure data security. We code and implement with Salesforce best practices in mind.

Our Services

Project Delivery

With 8+ years of experience in project based delivery, we can help you from ideation to production, with the appropriate level of engagement.

Managed Services

We build the right team to deliver ongoing managed services across complex, multi-cloud Salesforce implementations.

Staff Augmentation

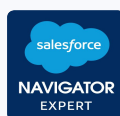

From a team of one to a team of many, we enable you to scale as needs arise, short-term or long-term, and any language, framework or technology.

We can help implement

- Sales Cloud
- Experience Cloud
- Customer 360 Platform
- MuleSoft
- Service Cloud
- Einstein & Tableau
- Heroku
- Slack
