# 580 Strategies
## Capability Statement

## SALESFORCE IMPLEMENTATION AND INTEGRATION

Our expert team of certified Salesforce engineers has years of experience implementing, configuring, customizing, and integrating Salesforce at the highest levels of government standards.

- Configuring and customizing Sales/Service/Marketing/Experience Cloud
- FedRAMP and FISMA compliance
- Implementing Multi Factor Authentication, Shield, and auditing security models
- Correspondence, Case, and Constituent Management specialties
- Integrating with other platforms including Mulesoft, Zapier, Slack, Mailchimp, Campaign Monitor, and Quickbooks

## AMAZON WEB SERVICES AND DEVOPS

Our team of AWS practitioners has delivered multiple full application suites from-scratch atop AWS technologies to provide unbeatable uptime and application flexibility with modern technical stacks and devops models.

- Full command of implementing major AWS services to exacting uptime and security standards including: S3, EC2, RDS, Route53, Cognito, Elastic Beanstalk, and Load Balancing across Availability Zones
- Implementation of traditional tiered development stacks with automated DevOps processes for release management and oversight
- Employing Terraform for Infrastructure-as-Code management and Jenkins for automated testing--powered by GitHub for source control
- Coaching for clients to leverage the power of DevOps for quality, control, and transparency in custom software delivery environments

## AGILE ACADEMY TRAINING AND COACHING

Our team is on the leading-edge of delivering agile methods at the highest levels of government and we have developed our own unique training curriculum tailored to government audiences.

- One-hour *Agile for Executives* high-level briefings
- *Agile Academy* Bootcamps that fully train and empower Product Owners and Scrum Masters to lead their own agile teams
- Implementing or supporting Centers of Excellence to manage multiple delivery teams or platform instances
- Topical seminars for *User-Centered Design*, *DevOps*, and *Agile Team Performance Management*
