

Application House

Testimonial From Our Nonprofit Client in Education Industry

"We brought on a team from Application House Limited to support us with transitioning one of our programs from a very old, hard-coded user interface in Salesforce Classic to a mostly out-of-the-box layout in Salesforce Lightning. It was important for us to preserve the things that our internal users appreciated most and used most often, and the Application House Limited team was able to guide us toward solutions that would feel the most "custom" but would still be easy to maintain as needed. We had done a lot of the discovery and discussion of business needs prior to engaging with Application House, which made the process of scoping technical requirements much smoother for this build than others I have experienced. The work that this team did to fully understand our needs, to document all the work that was done, and to ensure that our internal team was brought along in the process led to one of the most seamless and painless UI adoptions I have ever been a part of. Thank you to the Application house team"

Testimonial From Our Nonprofit Client in Education Industry

"We brought on Application House to support our team as our in-house Salesforce Admin was planning to transition out of the organization. The Application House team did an exemplary job learning about the organization and our data needs in order to support us. I have worked with data consultants in the past who struggled to learn all of the nuances of our program and our staff's needs, but I had the complete opposite experience with Application House. Over time, we were able to transition from merely focusing on short-term "survival" maintenance to bigger-picture projects like cleaning out old fields, relieving technical debt, and completing important documentation work to help us maintain our systems over time"

Testimonial From Our Client in the Healthcare Industry

"I really appreciate all the help you have given me and hope to make some further progress in removing the Managed Package from our system. Thanks again for all that you have done, I have learned so much!"

Testimonial from non-profit client organization that works towards the prevention of child abuse

"Application House Salesforce Architect did an incredible job with coming up with ideas to address our issue. He listened patiently (not many consultants do that!) and advised on a solution. His communication is quick and prompt. Highly recommend using his Salesforce consulting service!"
