PARTNER

OUR SERVICES

Advisory Services – we leverage deep healthcare & Salesforce expertise for strategy development, tactical planning, risk assessment, & value maximization.

Managed Services – we're an extension of our customers' own teams, offering ongoing solution development, upgrades management, conversions, Salesforce administration, & more.

Program Management – we happily partner (prime or sub) with Salesforce Pro Services & other consultants to actively manage our customers' project portfolios.

Project Execution – our AmpliFire accelerators, combined with our agile delivery framework, accelerate time-to-value & reduce customers' project risks.

Data Management – we provide everything our customers need, including business & technical architecture, to ready their Salesforce projects for deployment.

WE'RE HEALTHCARE EXPERTS

Since 2018, we've been building & delivering Salesforce solutions for payers, providers, pharmacy benefits managers (PBM), third party administrators (TPA), & general agencies (GA). Choose any cloud & our global team of more than 55 healthcare, technology, & Salesforce experts will assemble it for you.

AMPLIFIRE ACCELERATORS

Our quick start accelerators are purpose-built for healthcare. Our deployment-ready kits include Shop & Enroll, Provider Network Management, Member 360, & member, provider, & producer engagement portals for Medicare Advantage, Medicare Supplement, Individual, & Small Group lines of business.

PROJECT QUICKSTART KITS

- Pre-discovery templates
- Journey & personas mapping
- Best practices & gap analysis
- Objects, fields, page layouts, OmniScripts
- Data models & workbooks
- QA/UAT plans & scripts
- Post go-live warranty period
