Innovation Services to Augment Your Team

We believe that every org should optimize teams for innovation:

- Technical Support
- Production Delivery
- Feature Enhancements
- Customized Training
- Risk Mitigation
- Increased Productivity

Honest. Transparent. To the Point. *That's Kander.*

CIOs believe tech debt is increasing, but usually allocate less than 20% of their tech budget to paying it down (Stripe, 2022).

Benefits to Your Business

- **Reduced** on-going app maintenance
- **Decreased** personnel costs
- **Improved** production efficiencies
- **Increased** understanding of architecture

Innovation Services Deliverables

- **Enhancements** under 4 hrs per effort
- **Technical** troubleshooting on-demand
- **In-depth** documentation for your teams
- **Roadmap** to help deploy faster

Pricing Options Available

Our innovation services can be tailored to your technical needs, while empowering your teams to expedite continuous delivery.
