

# Client Testimonials

## Nonprofits

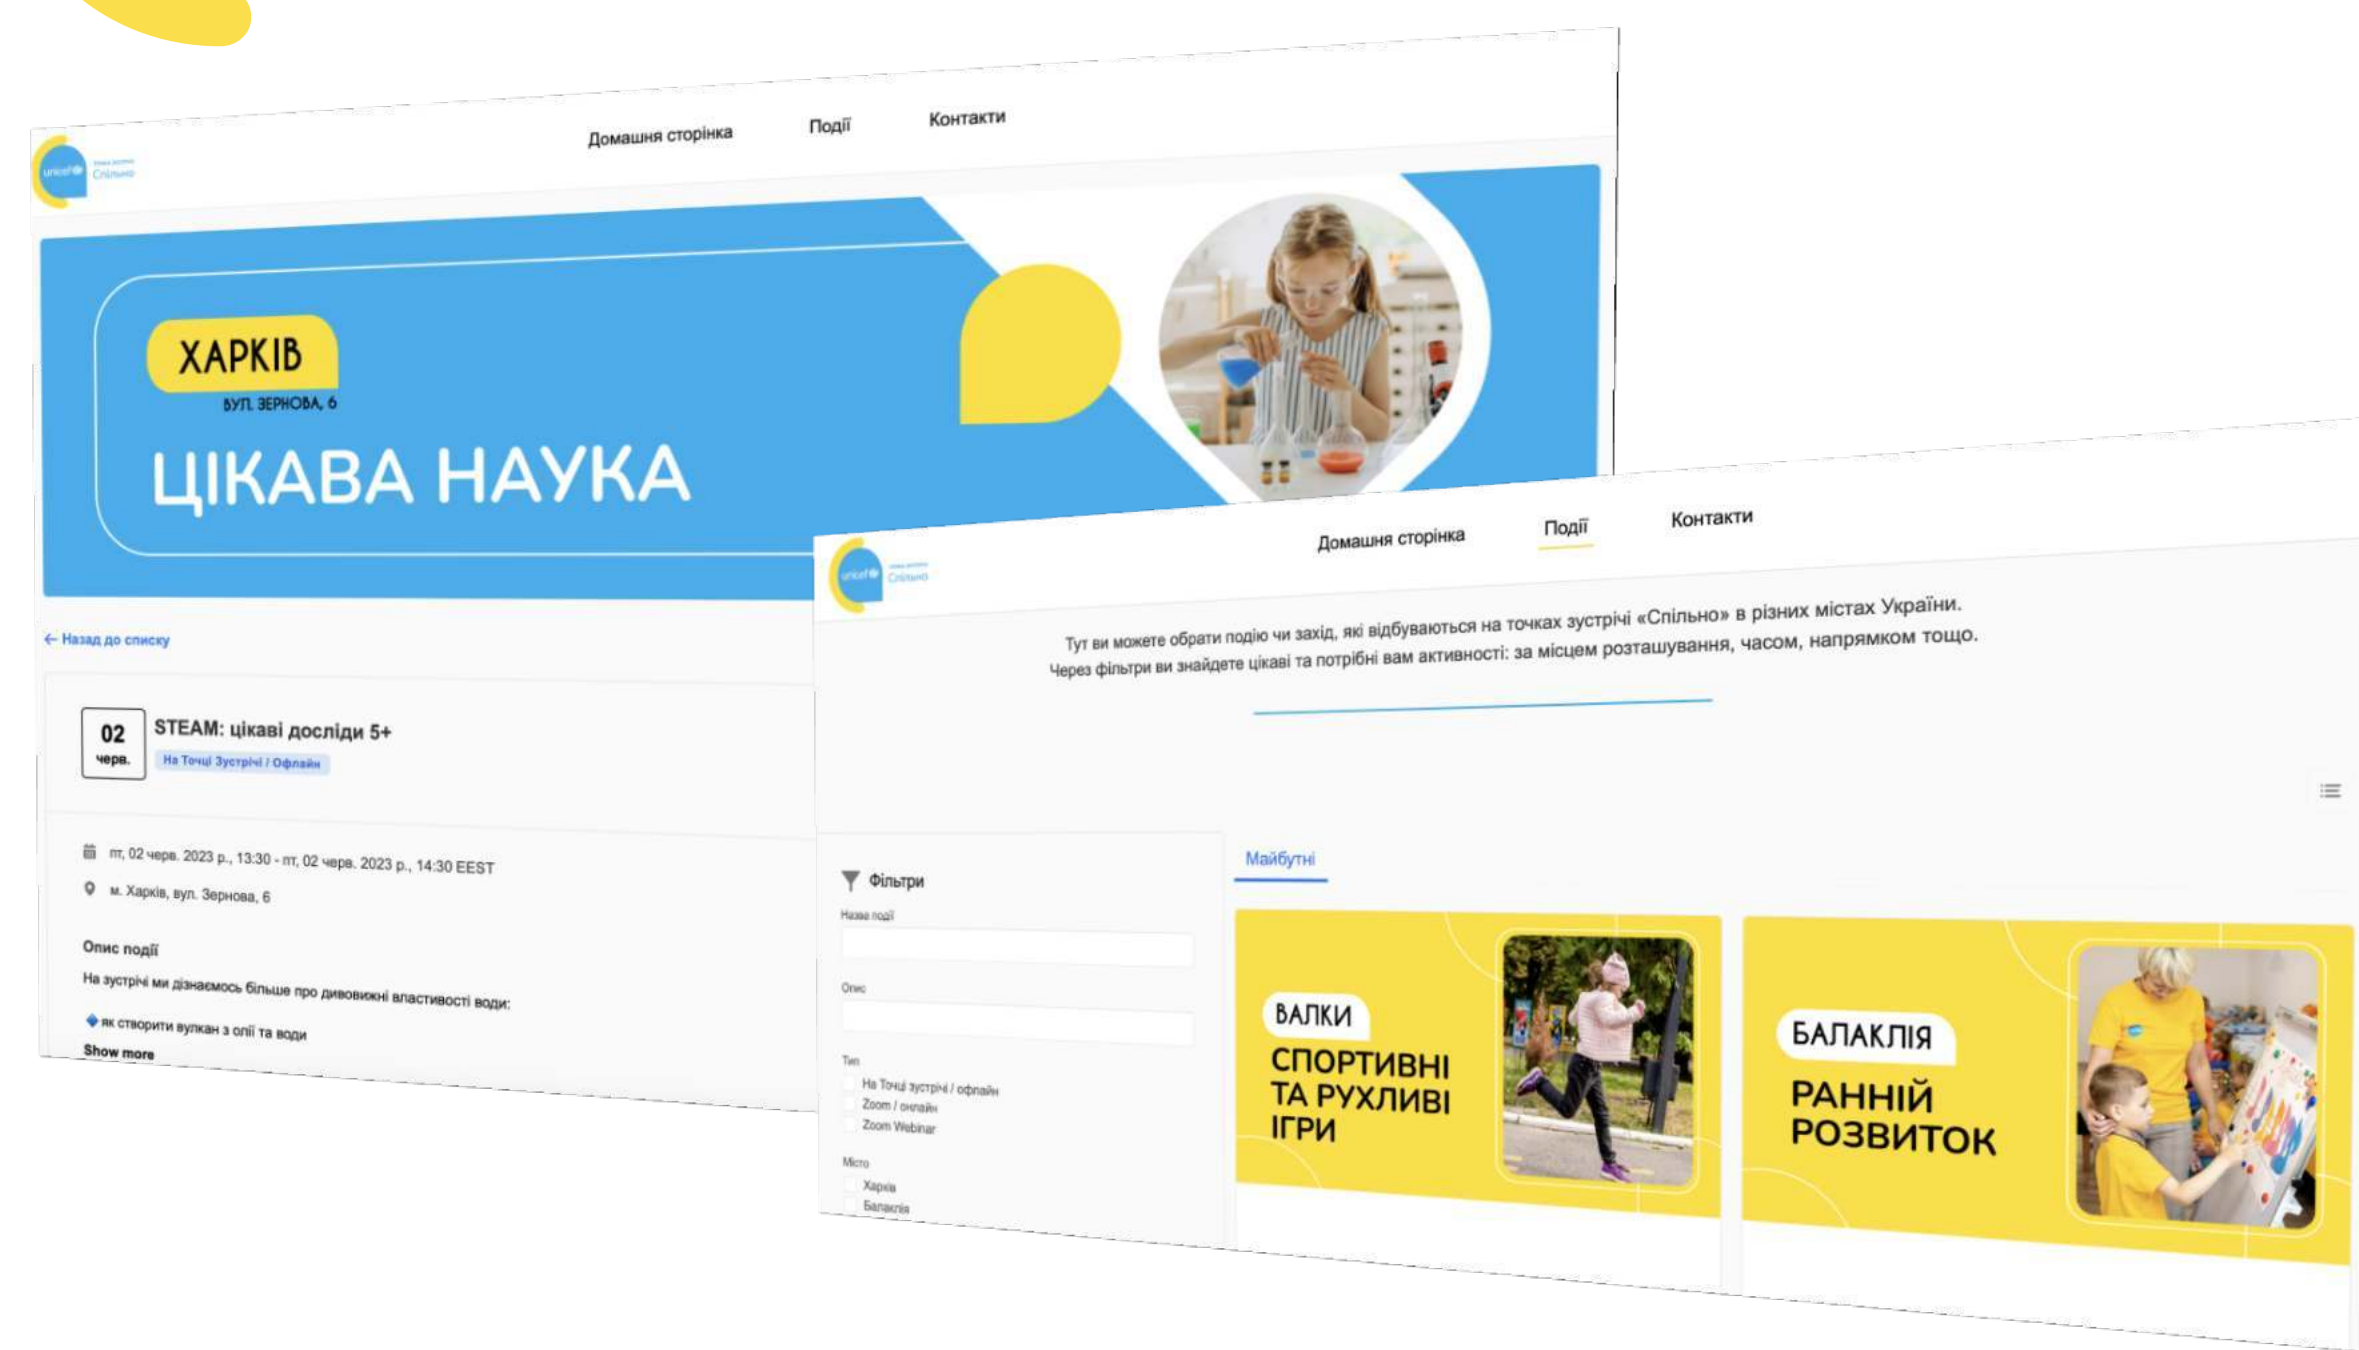

### Featured products/services

AC Events Enterprise  
AC Member Directory  
Experience Cloud

*"AC communication and action have been swift throughout (all) the project(s). Today we have a single platform serving five communities, with increased user satisfaction and further-decreased time spent on content and community management. A big thank you to everyone involved!"*

**Danny Iovane**  
Product Manager, Head of Digital Systems, Greenpeace

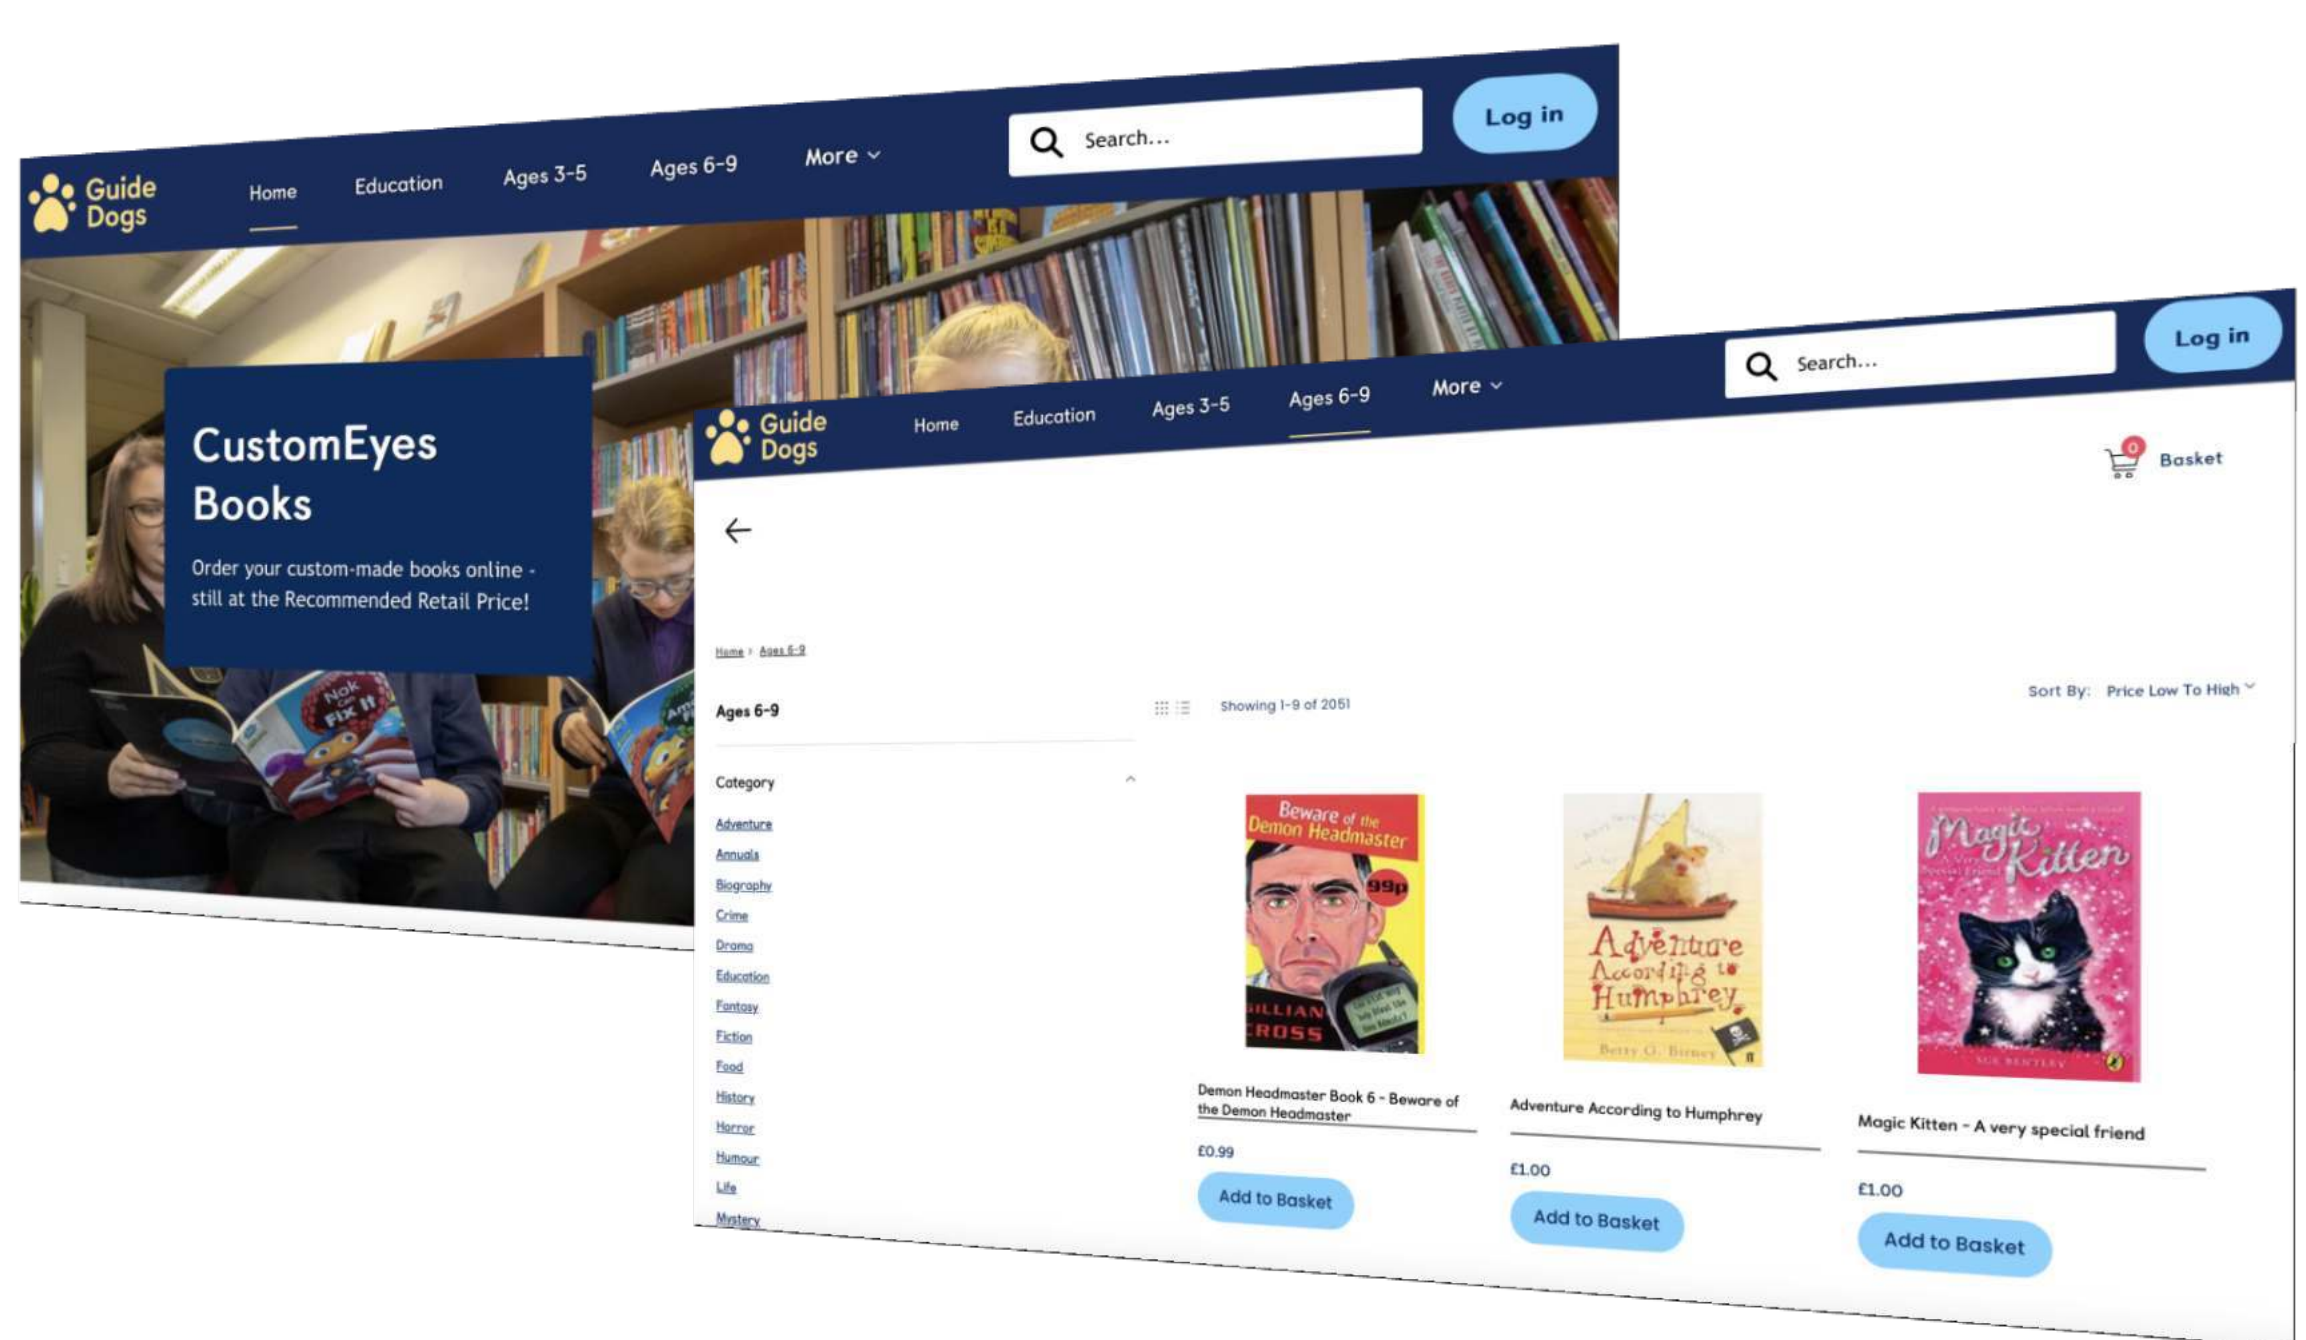

### Featured products/services

AC Events Enterprise

*"We are happy to work with a professional and highly detailed-oriented PM and a team of developers. Their work has had a crucial impact on the success of our project. We would recommend the company and its products as a professional tool for community management."*

**Dmytro Lobanov**  
Project Coordinator, Ukrainian Professional Development NGO

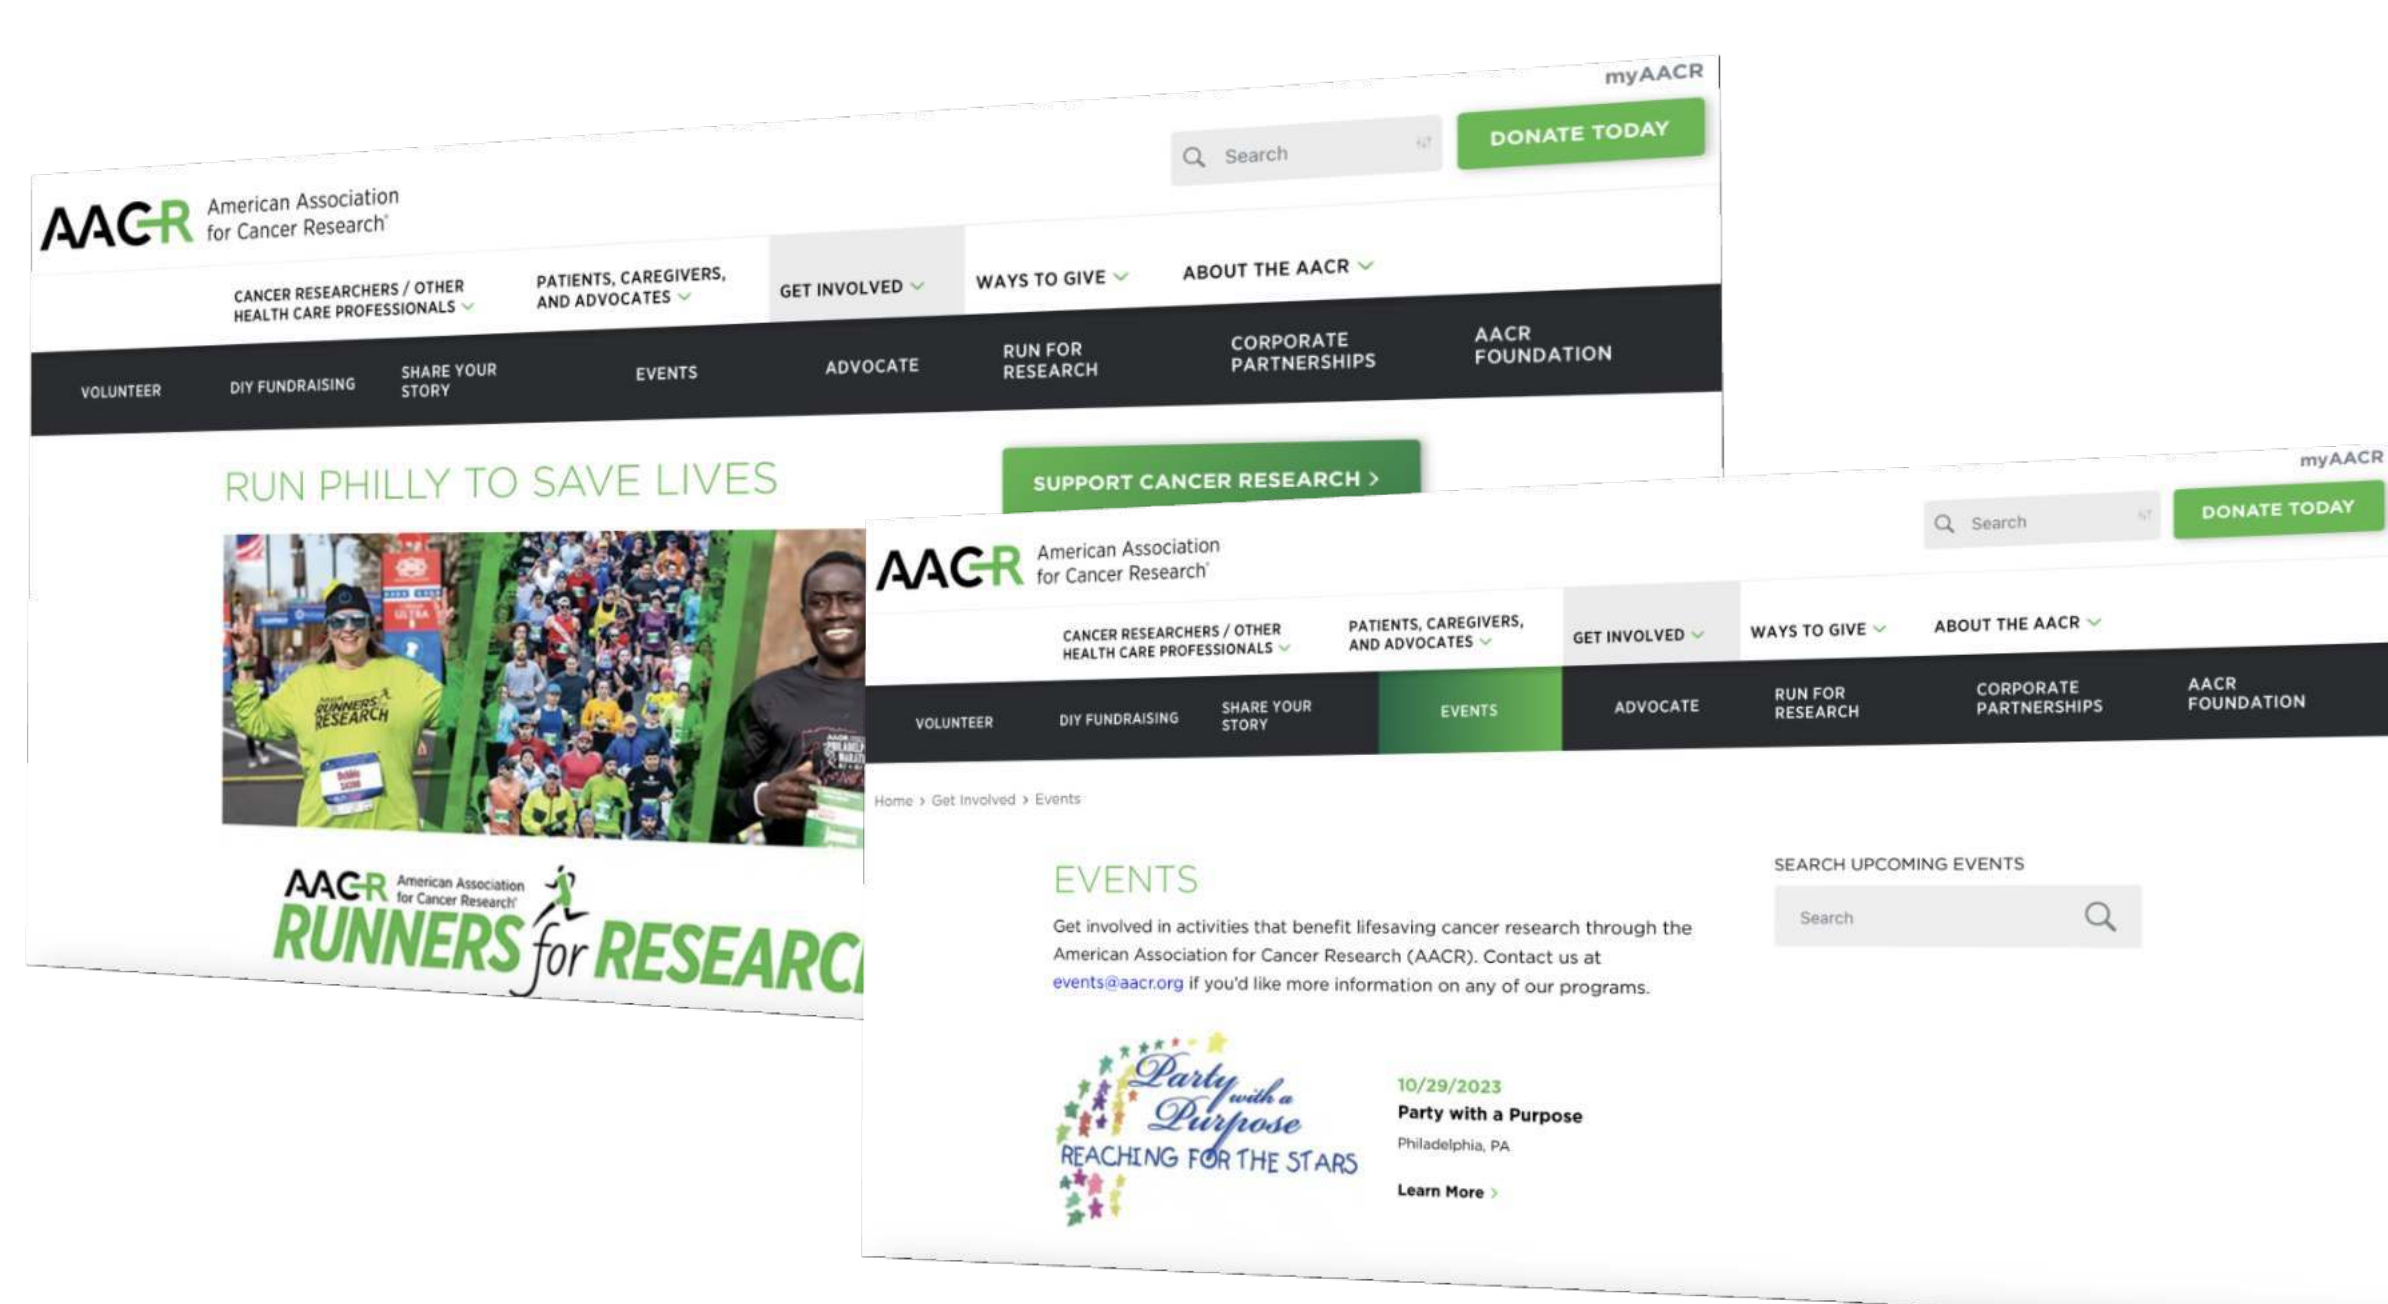

### Featured products/services

AC eCommerce for Nonprofits  
Experience Cloud

*"Advanced Communities were incredibly easy to work with, listened to our requirements and advised us on our options for using a product we were not very familiar with. Our service manager is really delighted with the bookshop which for us is the start of improving our service end to end including improving the automation of the printing. We couldn't have achieved what we have without the Ecommerce app and the customisation that Advanced Communities undertook for us."*

**Jane Huntington**  
Head Of Application Development & Support, Guide Dogs

### Featured products/services

AC Events Enterprise

*"Working with Advanced Communities was seamless, and what's best, is they delivered above and beyond everything they promised their firm and software could provide. Their success is driven by customer success because they truly care."*

**John McKenney**  
Director of Platform Engineering at the American Association for Cancer Research (AACR)
