

# StoreConnect is Customer Commerce built on Salesforce.

**Why StoreConnect?:** StoreConnect was built from the ground up for Small & Medium business, for Nonprofits and for Education. It provides the tools you need, natively in Salesforce.

**Affordable:** Starts from \$2,340 USD per annum per Salesforce org.

**Compatibility:** Works with Sales Cloud, Nonprofit & Education Clouds. Professional editions and up.

Sell to any market with StoreConnect: B2C, B2B & Direct to Consumer

## PAIN POINTS SOLVED:

- ✓ Multiple plug-ins / systems create pain for SMBs. Instead of having 10-20 unique systems, StoreConnect reduces this footprint by 50-75%. These systems each require APIs and integrations, slowing page load times and losing customers,
- ✓ Multiple IT systems require multiple skill sets to manage. StoreConnect is based on and leverages your Salesforce investment fully. Freeing up resources to focus on customer acquisition and retention.
- ✓ Most eCommerce solutions silo customer information. Data silos cause errors, double work and slow reporting or analytics. There is no complete understanding of a customer. With StoreConnect this is solved.
- ✓ A lack of accurate, timely sales information from Point of Sale and eCommerce can result in slow customer service and marketing inefficiency. Commerce built on Salesforce gives a centralised, integrated system with real time updates bringing sales, service and marketing in complete sync.

## KEY BENEFITS

- All commerce orders, products, configuration and management is consolidated in one system.
- Built on the Salesforce Lightning platform.
- Real time analytics/reporting.
- Supports multi-store, multi-currency, multi-pricebooks by default.
