

Symphony

Accelerate Salesforce Deployments with Symphony from Attentis Consulting

Symphony, developed by Attentis Consulting, is a robust and agile delivery framework that's meticulously crafted with specialized processes and artifacts. Purpose-built for Salesforce healthcare deployments, Symphony helps health plans and providers get even more from their Salesforce investment.

Key Features and Benefits:

1

Structured Framework: At its core lies Symphony's agile methodology, optimized for healthcare. From planning to discovery, dynamic workflows, bi-weekly sprints, and proactive risk management, we focus on adaptability and rapid execution throughout the entire project.

2

Client-Centric Approach: We obsess over alignment and work hand in hand with our clients' teams to ensure everyone is on the same sheet of music. Our delivery team employs agile methodology, expert project management, specialized healthcare and Salesforce knowledge, and pre-built project artifacts to deliver precisely-tailored solutions.

3

Innovative Accelerators: Unique to Attentis Consulting, our innovative accelerators called AmpliFires, provide a robust development foundation. We combine our healthcare and industry expertise with pre-built artifacts and a tailored project delivery approach to help customers accelerate their time to value.

4

Quality Assurance & Testing: Our dedicated QA team ensures top-notch performance and platform integrity at every implementation stage. Through robust testing methodologies and automation tools, we deliver seamless functionality, accuracy, and reliability.

5

Reporting & Analytics: Managing projects requires access to accurate and actionable insights. Each project includes reports, dashboards, and analytics to help you gain valuable business intelligence from your project and your Salesforce data.

6

Training & User Support: To maximize user adoption and ensure your team gets the most out of Salesforce, we provide comprehensive training programs tailored to your specific needs. Our experts will empower your users with the knowledge and skills required to leverage Salesforce's full potential, promoting productivity and efficiency.

7

Post-Implementation Support: Our commitment extends beyond deployment, encompassing ongoing support and maintenance via Attentis' Encore Services. We promptly address issues that may arise after the solution goes live, ensuring uninterrupted and smooth operation.

Choose Symphony from Attentis Consulting

- 1 **Trusted Salesforce Partner:** With extensive experience in Salesforce implementation and optimization, Attentis Consulting is a trusted Salesforce partner dedicated to your success.
- 2 **Tailored Solutions:** We understand that every business has unique needs and objectives. Our Symphony and Encore Services suites are tailored to align with your specific requirements, ensuring a personalized and effective approach.
- 3 **Expert Team:** Our team of certified Salesforce professionals brings deep expertise and a wealth of healthcare industry knowledge to address your most complex challenges. We're committed to delivering exceptional service and exceeding your expectations.
- 4 **Scalability & Flexibility:** Whether you're a small healthcare organization or a large enterprise, we scale with your organization. We adapt to your evolving needs and provide flexible engagement models to support your growth.
- 5 **Proven Track Record:** Attentis Consulting has a proven track record of successful Salesforce implementations and long-term partnerships. We've helped numerous healthcare customers achieve their Salesforce goals and drive sustainable business growth.

Conclusion:

Partnering with Attentis Consulting unlocks the full potential of your Salesforce investment. Symphony, our client-focused project delivery suite, ensures the delivery of high-quality, tailored solutions aligned with your unique requirements. Our comprehensive suite of services helps ensure that your Salesforce platform aligns precisely with your business objectives.
