SALESFORCE SECURITY & RISK ASSESSMENT

Your Salesforce org houses your most valuable customer data and because of this it is at risk of insider and cyber threats. Let XenTegra help with a complimentary Security & Risk Assessment to help uncover any risks and concerns.

BENEFITS

Actionable guidance for reducing potential Data Breaches guidelines for enhanced Salesforce conformance

Best Practice recommendations on your org's overall security health.

Insight into possible misconfigurations as well as third party app risks for Salesforce org optimization and resolution of assessment discoveries.

OBJECTIVES

Align with Organizational Goals
During the Assessment, we will discuss your Organizational Goals so that we can include them in our recommendations.

**Salesforce Org
Security Assessment**
XenTegra will conduct a High-Level Security Assessment on your Org to help you protect your data.

Salesforce Org Risk Assessment
XenTegra, in conjunction with Varonis, will conduct a deep inspection of your data to uncover potential data breach risks as well as misconfigurations that could lead to data exposure.

WHY XENTEGRA

XenTegra's Salesforce Security and Risk Assessment offers specialized expertise, aligned with industry best practice recommendations tailored to meet your goals.
