OUR COMMITMENT

At Bot Consulting LLC, we believe in the enduring impact of benevolence, justice, and kindness, as mentioned in ***II Corinthians 9:9***, and we aspire to contribute to the perpetuity of these virtues in the work of our customers.

My name is Holly Bot. In November 2023 I opened Bot Consulting LLC, focusing on Jesus-oriented, faith-based organizations. With now more than 20 years in IT, I never previously pursued a career in tech. I pursued money and fame with IT as the tool. God brought me to my knees with an 8-year prison sentence in 2010. His mercy is great, His grace is greater.

God has equipped me with these skills for His purposes. He's provided me the education, certifications, and experiences needed for His plans. He's very thorough in provision. Our mission is now one of faith. Adventure awaits! **How can we serve you?**
