## RPA MAGIC

Experience transformation with automation!

Prodigy RPA experts streamline processes, including data extraction, workflow automation, and error reduction. Our system eliminates manual entry by scanning and extracting data from PDF invoices.

Prodigy leverages RPA to extract and populate data in Salesforce tables, fostering seamless connectivity across AvSight, and Accounting Seed. For example, we voucher the repair order process in AvSight and write invoices from the simple to the most complex in Accounting Seed. Then we work our magic on advanced business processes like three way matching using Salesforce Flow.

# AVSIGHT BRILLIANCE UNLEASHED

Unleash the brilliance of AvSight with Prodigy!

We transform the intricacies of AvSight into a seamless experience, ensuring you harness its full potential. Think inventory optimization, streamlined maintenance, financial efficiency, and a whole lot more. For instance, imagine automatically attaching documents to outbound email notifications.

Prodigy's expertise in AvSight extends beyond functionality. Ours is a journey of optimization and innovation tailored to your aviation needs.
