

Uplevel Your Omnichannel Capabilities

with **Dropit**

Drive conversions and efficiency across channels with real-time data unification and optimizations for in-store and online.

Store Fulfillment

Connect sales channels and convert stores into last-mile distribution centers extending reach and shortening delivery times.

Smart Returns

Simplify returns management by intelligently routing returns to the optimal location, saving time, money, and waste.

Unified Inventory

Unify real-time data across channels establishing a consolidated inventory view to inform smarter decisions and prevent stock-related issues.

Scan, Pay & Go

Provide shoppers the convenience of scanning in-store items via their mobile phones and checkout online increasing conversions.

Handsfree Shopping

Redefine convenience with product delivery to a pick-up point, hotel, or residence, allowing customers a bag-free shopping experience.

The Dropit Benefits

Connect disparate systems & data

Reduce operational costs

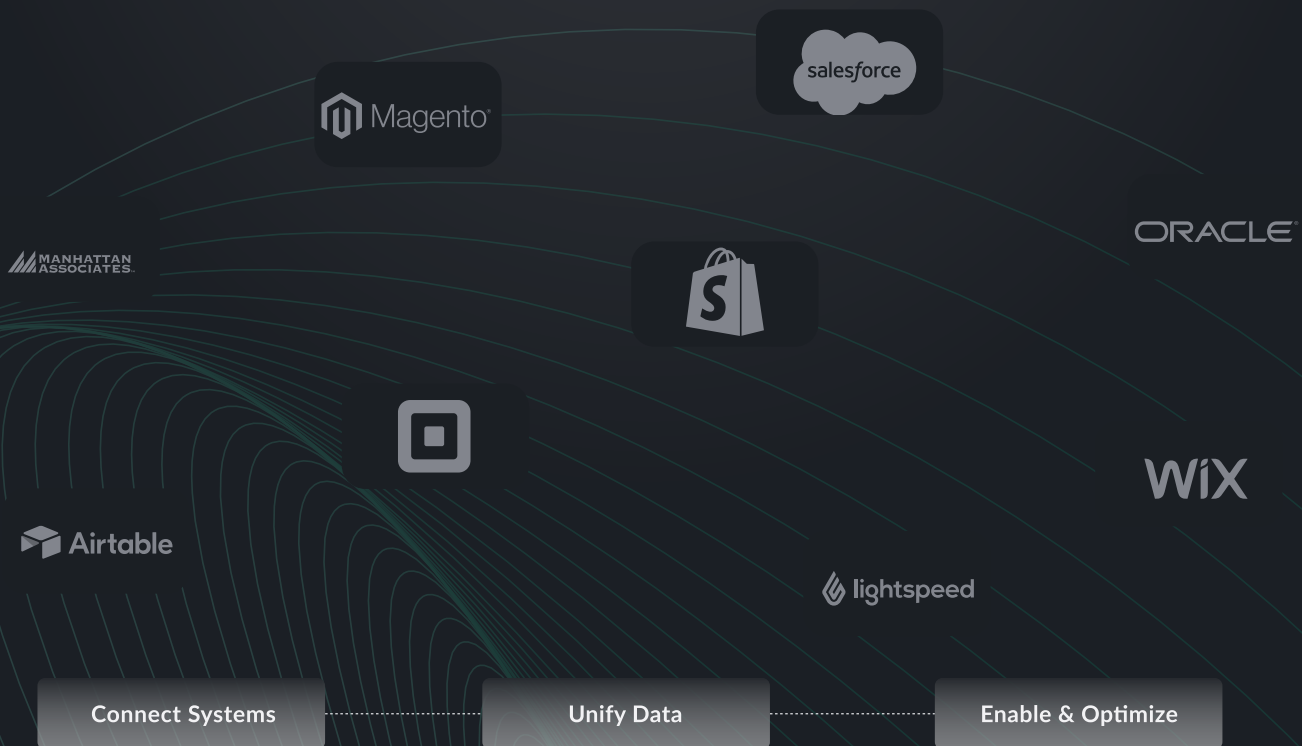

Improve decisioning & processes in real-time

Improve inventory efficiency & performance

No need to rip and replace

Integrate Dropit's revolutionary capabilities into any standard or custom retail system - **2-6x faster** than standard tech integrations.
