

# Payable Invoice Scan App

Automate the processing of your invoices with the Payable Invoice Scan App (PISA) today.

**01** Experience a reduction of 80% in processing time.

**02** Process over 4000 invoices a month.

**03** Automate the processing of your prepaid expenses each month.

## What's is PISA

The combination of Optical Character Recognition (OCR) technology and native integration with FinancialForce (FF) Accounting makes processing invoices easier than ever before.

## The Goal of PISA

The PISA App reduces the time to create a post a payable invoice (PIN) in FinancialForce by using OCR recognised information and integrating it with FinancialForce Purchase Orders.

## PISA Features

Our latest PISA upgrade includes the release of a new and improved user experience which will allow you to perform most of your AP related tasks from the same screen.
