FAQ

How is this different from the SimSkillr Talent Program?
The (A)2(A) program is meant for the existing Admin who is already on the team looking to UpSkill and expand into the broader Business Analyst role.

Does (A)2(A) still utilize Simulations?
ABSOLUTELY! The training utlizes the same tools and Experience Architecture as the the bigger SimSkillr Talent Program.

What kind of time committment is required? These folks still have their day jobs!
We estimate 60-80 hours ove the course of 2-3 months. We try to slide the training into existing work schedules as "Just another project" that may add up to 6.5 hours of work to complete the program.

PROJECT MANAGEMENT: ACTIVELY COLLABORATE, SET MILESTONES, AND PUSH THE PROJECT THROUGH TO COMPLETION
