

ERYK

STREAMLINES ITS BUSINESS PROCESS

thanks to Salesforce
technology

Cloudity

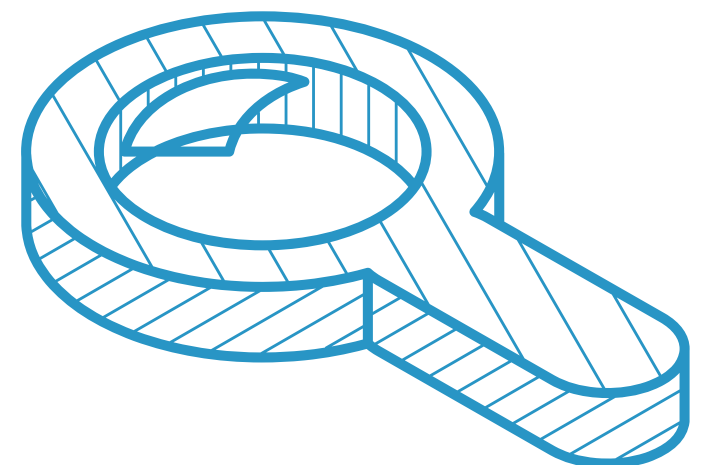

International technical service provider
in electrical & mechanical installations,
engineering, commissioning and more.

PROBLEMS ERYK WAS FACING:

- # detailed information needed for everyday operations **kept in spreadsheets**
- # **lack of data synchronization** between spreadsheets and the initially implemented Salesforce platform
- # project documentation **made in MS Office**

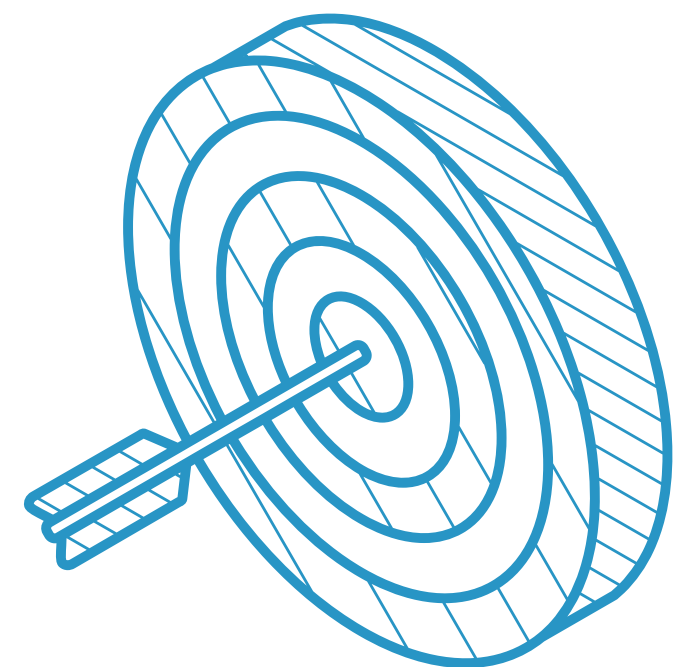

WHAT WE IMPLEMENTED:

Salesforce Sales Cloud

customized billing module

customized solution for Project Management

customized solution for HR

KEY BENEFITS FOR ERYK:

- # project's data available on a single system **from anywhere in the world**
- # **simplified entry** of project management data
- # **automation of daily, labour-intensive tasks** such as generating official documents
- # **increase of the quality** of official document generation

“Open-minded, smart, and creative people. As an international technical service provider, **we had, of course, very high expectations and Cloudity met them!**”
