

Election Solutions Suite

The MTX Election Solutions Suite enables easy management of elections, voter maintenance, and campaign finance in one centralized system to create efficiencies in your operations and reduce manual and redundant tasks. We provide speed, scalability, reliability, accessibility, and security for your state's needs.

FEATURES:

Process Management

Provides secure and verified end-to-end process execution in one seamless system

- Voter Registration
- Self-Service for Voters, Poll Workers, and Filers
- Redistricting Management
- Election Management
- Candidate Management
- Campaign Finance and Disclosure
- Lobbyist Filings and Disclosure

Centralized Data

Connects multiple data sources with ease, whether a legacy system or other critical information sources. Integrations can include your voting system, ePollbook, Department of Motor Vehicles, USPS, ballot tracking, and more.

Real-Time Reporting

Empowers constituents by allowing them to easily view their voter history, polling place location, sample ballots, and campaign contributions. Our solutions maintain historical records and immutable logging for transparency and compliance.

Accountability Management

Employs a comprehensive set of tools and features that defines roles and automated processes, tracks changes, and fosters collaboration among users.

Guided Expertise

Solves your biggest challenges in managing voters, redistricting projects, candidates, campaign financing, polling locations, elections, ballots, and petitions.

Enhances voter verification to ensure accurate and fair elections

Supplies real-time updates on voter accountability

Provides transparency around campaign finance and election process for constituents

Delivers a working solution in months, not years
