Case Study

Opportunity

- Optimization and consolidation of people, processes and offices or locations across the entire company footprint.

Result

- Stood-up 4 new dedicated teams in 6 months for PGE's top tier customers Tesla and San Francisco Bay Area Rapid Transit.
- Consolidated 75 Offices to 30 over a 1-year period and moved and transitioned over 5,000 employees.
- Improved processing time of EV applications from 4 months to 45 days and increased speed to energy charging stations by 50%.

Customer Success ★★★★★

- Stood up a dedicated Express Connect team to reduce the lead time required of customers requesting disconnection & reconnection of their services.
- Roll-out of Bots to eliminate major pain points in critical process for customers.
- Lead Project and Change management for SAP S4 Hanna Enterprise Estimating solution.

Voice of Our Customer

NPC consultants are best in class Change Management and Organizational Development professionals. I've had the pleasure to work with the team on SAP implementations, business process optimization projects and other transformative projects in the utility space over the years. Specifically, on the implementation of complex engineering tools and organizational restructuring. The team is strategic, executes on plan, and ensures high adoption rates amongst the stakeholders. They radiate positivity and are a joy to work with.
