How it works / Our Approach

- ### Discovery & Design

  Our Salesforce experts will partner with you to:

  - **Understand Your Business:** Analyze your unique processes and identify opportunities for improvement.
  - **Define Your Vision:** Explore your long-term goals and aspirations for Salesforce, Define & select use cases..
  - **Recommend Tailored Strategies:** Leverage our extensive experience to provide expert guidance.

- ### Delivery

  - **Build, Internal QA**
  - **Demostrations**, **Training**, **User Acceptance**
  - **Production Go-LIVE**
  - **Warranty Support**

- ### Key Outcome

  - **Data Consolidation:** Centralized customer information on Salesforce Data Cloud, no more operating on siloed data.
  - **Real-time Data:** Availability of a single view of your customers which can be actioned upon based on in-the-moment customer behavior.
  - **Rapid, powerful, personalized Automations:** Automated & personalized marketing, advertising, sales. service processes based on Data cloud's real-time data
  - **Next-Level Readiness:** Data Cloud scales as your business grows, with security, compliance, and privacy built right into platform.

Additional Support

Post delivery (as per the opted package) is complete, Girikon will provide the following support for additional four weeks:

- Email based support
- Minor tweaks to your implementation
- Up to 2 hours of additional training time for better concept/ technology/roadmap understanding

This ensures that you find us by your side when you need. As your organization grows and evolves, your Data Cloud CRM implementation will need to keep pace too. It will always be easy to re-initiate enhancements by partnering with someone who already has the background knowledge, context & shares the vision. Feel free to reach out anytime!
