

# TEK FOR HOW WE WORK, LIVE & PLAY

axsysTek is an information technology company providing innovative cloud, mobile and digital media solutions to industry, government and online consumers enabling them to keep pace in an ever evolving digital world. Our cloud analysts, web designers, marketing experts, app developers and digital media creators help reimagine and improve the user experience through technology for how we work, live and play.

## Maximize Your Cloud Investments

axsysTek provides a full range of cloud solution services delivered by an exceptional technical and business team with decades of experience designing and implementing a broad range of application services for some of the world's largest organizations.

## What We Do

Success of an enterprise is much more than the technology that powers it — it's about people who use it. To deliver success, we partner with our customers throughout the entire solution process. Using our Agile development method AIR (Analyze, Iterate and Release) we apply a collaborative process taking customers beyond routine software implementation but empower them with features needed in today's digital world including interactive, mobile and integrated apps so one-to-one customer relationships can become a reality.

## Our services include:

### Cloud Advisory

Strategy, design, roadmap, data model and budget to help fill gaps on cloud so it can be implemented in ways that work for you.

### Web & Mobile Apps

Web and mobile apps providing cross-functional multi-device features that are innovative and highly productive.

### Salesforce CRM

Integrated sales and service management systems and crm apps we design, build and deliver using the Salesforce platform.

### eMarketing

Marketing automation providing a 360-degree customer view with insight and analysis into behavior, interest and buying cycles.

### Digital Media

Data-rich digital media designed to capture and personalize engagements as well as measure and analyze subscriber interactions.

### Agile PM

Agile expertise to organize and lead cross-functional teams for productive and predictable delivery that gets the job done.

## Transform Your Organization

If you need to move to the Next Level with cloud, mobile and digital media solutions, axsysTek can help transform your enterprise. Our diverse portfolio of solutions in manufacturing, tech, government, non-profit, healthcare, education, aerospace, retail and financial services coupled with our Agile methodology, ensures that we design solutions that help you meet your goals and fit your budget.
