VECTR SOLUTIONS

Agentforce for Government Contractors and Suppliers

Proposal & RFP Management

- Automate RFP workflows for timely submissions and compliance tracking.
- Enhance collaboration across proposal teams with centralized processes.
- Ensure compliance with built-in tracking and approval workflows.

Contract Compliance & Lifecycle Management

- Streamline contract tracking for better visibility and control.
- Manage milestones efficiently to stay on schedule and reduce risk.
- Ensure regulatory compliance with automated monitoring and reporting.

Supplier & Procurement Coordination

- Optimize vendor communication with automated updates and tracking.
- Streamline procurement processes to ensure efficiency and visibility.
- Verify compliance seamlessly to prevent supply chain disruptions.

AI-Powered Quoting for Engineering & Manufacturing

- Generate quotes derived from product schematics through intelligent doc processing
- Leverage trained agents to build a bill of materials (BOM)
- Use Salesforce agents to manage the quote through approval processes and client submission
