Shaping the Future of Work:

Partner with BIT to Empower Skilled Professionals With Disabilities

Transforming Opportunities for People with Disabilities

Blind Institute of Technology (BIT) is reshaping education and career paths to equip professionals with disabilities for success in today's workforce.

Powered by the Disability Innovation Fund

- Purpose: Build a modern workforce by transforming education and employment models.
- Scope: BIT's Academy and Apprenticeship Program offers Salesforce Admin, Digital Accessibility, Front End Development (focus of accessibility), and Project Management apprentices to organizations nationwide.
- Nationwide Reach: Our program is nationwide, with apprentices located across numerous states.

Why Host a BIT Apprentice?

- Minimal Cost: Supported by a federal grant.
- Top Talent: Skilled, certified professionals in Salesforce Admin, Digital Accessibility, Front End Development, and Project Management
- Unlock Untapped Talent: Build a dynamic workforce with skilled professionals with disabilities.

BLIND INSTITUTE OF TECHNOLOGY

Shaping the Future of Work:
Become a BIT Apprenticeship Partner

The BIT Model

- Industry-recognized certifications in Salesforce Admin, Digital Accessibility, Front End Development, and Project Management.
- Prepared graduates ready for competitive industries.
- A nationwide talent pool of skilled professionals with disabilities.

Hosting Steps Made Simple

1. Commit to BIT's Apprenticeship Standards and Guidelines.
2. Sign the Employer Acceptance Agreement.
3. Provide hands-on training and supervision per BIT's Work Process Schedule.

Join Us in Shaping the Future

Hosting a BIT apprentice gives your organization access to skilled professionals who are ready to contribute and make an impact. Partnering with BIT strengthens your workforce and demonstrates your commitment to leveling the playing field in tech and beyond.
