

Salesforce for Healthcare & Life Sciences

We understand that improving efficiencies and reducing costs is one of your top priorities. Salesforce and NimbusPoint Consulting can help you lower costs with automation and increase productivity with a tailored solution that supports the management of patient and member relationships. Using the #1 CRM can give your organisation fast access to a 360-degree view of each patient - helping deliver smarter patient management and better patient engagement.

Solution Features

Streamline patient intake management with forms

Household and other patient relationships

Referral management for inbound and outbound patients

Patient Care Management with Care Plans

Automatic Insurance Verification (US only)

Patient metrics around referrals, visits and post care

Intelligent sales for medical devices

Integration with EHRs and ERPs
