

# Streamlining Manufacturing Operations for Faster Time-to-Market

Unify Operations, Optimize Processes, Harness Real-Time Insights with Grazitti

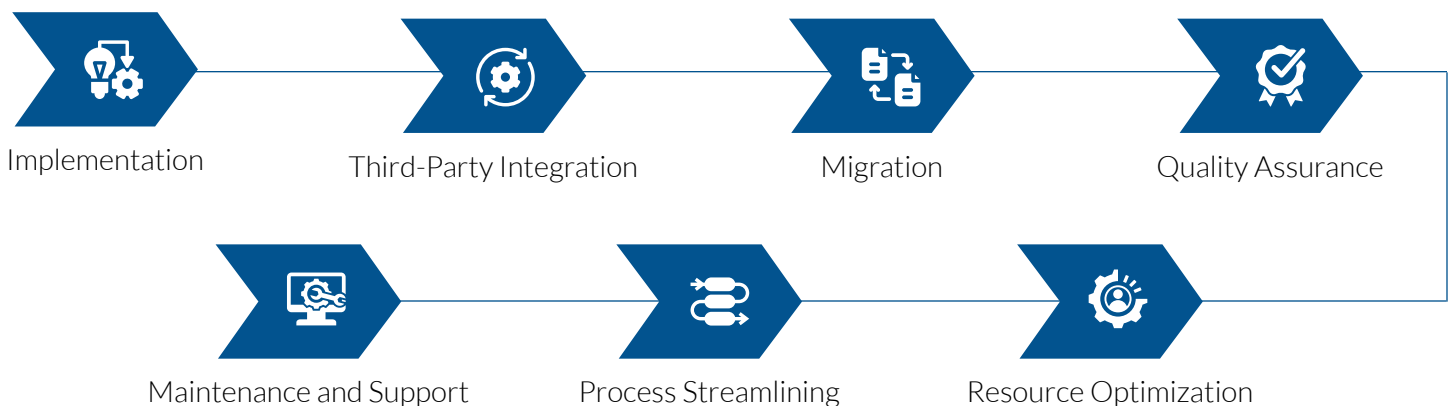

Manufacturers face complex supply chains, fluctuating demand, and siloed operations, challenges that outdated systems can't handle.

Salesforce Manufacturing Cloud addresses this challenge with an AI-driven, cloud-based platform that unifies sales and service, enhances forecasting, and fosters agility through automation and real-time insights.

At Grazitti, we tailor the Manufacturing Cloud to your needs—building custom data models and automation that reduce operational costs, enhance efficiency, and expedite decision-making across your value chain.

## End-to-End Salesforce Manufacturing Cloud Services

# Transform Manufacturing Operations with Intelligence

Industrial-Grade AI Innovation — Built into Your Salesforce Manufacturing Cloud by Grazitti

## Agentforce-Powered AI Automation

Accelerate operational efficiency with autonomous agents that surface real-time insights and trigger the next best action, eliminating manual intervention.

## Einstein AI for Forecast Accuracy

Leverage AI models trained on your historical patterns, seasonal shifts, and manufacturing dynamics, so your forecasts reflect what's likely, not what's hoped for.

## Predictive Partner & Channel Insights

Get insights to analyze partner performance trends, run-rate health, and demand signals using pre-built ML models and custom analytics.

## Interactive, Role-Based Dashboards

Empower every stakeholder, from C-suite to sales to partners, with dynamic dashboards designed for their specific KPIs, driving faster, more informed decision-making.

## Ongoing Operational Optimization

Deploy self-improving systems that learn from usage and outcomes, enabling you to scale operations, reduce rework, and optimize in real time.
