

From Chaos to \$3.5M:

mindZvue's Salesforce Optimization for a Global Manufacturer

The Challenge:

A global manufacturer faced \$2.7M million in revenue loss annually from a dysfunctional Salesforce setup. Low user adoption led to inaccurate data and forecasting. Siloed field service teams struggled with disjointed workflows.

The Solution:

mindZvue implemented a comprehensive strategy, customizing Sales & Service Cloud, transforming Field Service Lightning (FSL), and revamping CPQ to align with the manufacturer's workflows and use cases.

The Results: A \$3.5M Revenue Uplift

- ✓ 50% Faster Deal Cycles
- ✓ 30% Improved Service Efficiency
- ✓ Salesforce Adoption: 43% to 85%

Client Testimonials:

mindZvue didn't just fix our Salesforce setup—they unlocked revenue we didn't even realize we were losing. Our deal cycles are nearly twice as fast, and our service teams are more efficient than ever.
