

ADVANCING HIGHER EDUCATION

TONDRO AI TRANSCRIPTS

Intelligent Transcript Processing for Higher Education

You're Closer Than You Think

- Native Salesforce integration delivers seamless workflows
- Less than 3-minute processing time with 90% extraction accuracy
- 90% cost reduction vs. manual review
- Human-in-the-loop validation for quality control
- Scalable and affordable for any size institution
- FERPA-compliant with real-time audit logs

Built for Efficiency, Designed to Scale

Tondro AI Transcripts is the first in our AI suite of purpose-built solutions for higher education— fast, accurate, and FERPA-Compliant. It solves one of higher ed's most persistent pain points: manual transcript intake.

What It Does

- Automatically extracts and parses transcript data from PDFs and image files
- Maps data to your student system fields (GPA, credits, institutions, majors, etc.)
- Flags issues for quick, human-in-the-loop review
- Secure, audit-friendly, FERPA-compliant
-

Why It Works

- Trained on real-world higher ed data
- Built with registrars and admissions teams in mind
- Native to Salesforce for seamless workflow integration

What You Get

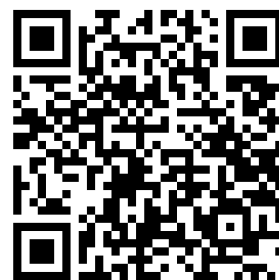

- Faster transfer credit evaluations
- Scalable processes for high-volume seasons
- Lower processing costs, less manual work

Why It Matters

Transcript delays undermine student services and staff efficiency. Intelligent automation fixes that — fast.
