

Client Review

I am very satisfied with the work performed by Mission in Motion. We are a small nonprofit with no tech support, so our Salesforce instance was long overdue for maintenance and fixes. The team at Mission in Motion quickly assessed the issues and explained the work that was needed. Communication from the Mission in Motion team was prompt and articulate. I've spoken with a number of Salesforce consultants over the past 5 years, and I found Mission in Motion to stand way above the others in knowledge of Salesforce and assessing how to fix problems.
