

# AGENTFORCE ADMISSIONS ACCELERATORS

**Scaling your admissions team without increasing headcount. Our accelerators handle the high-volume manual tasks so your staff can focus on building relationships with prospective students.**

## TONDRO'S HIGHER ED ACCELERATOR SUITE

### CHECKLIST VERIFICATION

This agent reads student submissions intelligently, identifying the document type and checks the box in Salesforce for you while flagging items for final review.

### STUDENT NAVIGATOR

This agent goes beyond basic chat to execute tasks like updating student records and scheduling appointments, providing a full summary to your team for a seamless human hand-off.

### INBOX TRIAGE AGENT

This agent parses emails and attachments to identify student intent, automatically routing legitimate cases to the correct department while clearing out the noise of spam.

## SECURITY & TRUST

### The Einstein Trust Layer

- 100% native to the Salesforce Trust Layer.
- Data is masked and never leaves your org.
- Your data is never used to train public AI.
- Inherits all existing Education Cloud security.

### HUMAN-IN-THE-LOOP

- Built-in reasoning guardrails for every action.
- Low-confidence items are auto-routed to staff.
- AI handles the volume; humans make the decisions.

### RAPID DEPLOYMENT

- 4-week "Sprint-to-Value" implementation.
- Pre-built templates tailored to your rules.
- Zero-disruption setup for Education Cloud.
