

Security Assessment

You Can't Fix What You Can't See

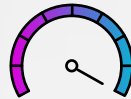

You've Got
Salesforce
But Is It Secure?

Know where your risks are
and fix what matters.

- ✓ Real risks in your Salesforce org
- ✓ Based on your actual setup
- ✓ No fluff. Just clarity.

What You Get

Security Scorecard

- ✓ Clear grading across key security areas
- ✓ Immediate visibility into risk levels
- ✓ Benchmark against best practices

Real Findings

- ✓ Over permissions users
- ✓ Data exposure risk
- ✓ Vulnerable integrations
- ✓ Misconfigured access and sharing

Action Plan

- ✓ Prioritized fixes (not a laundry list)
- ✓ What to fix now vs later
- ✓ Clear path to a stronger security posture

What We Check

User
Permissions
& Profiles

Record
Access &
Sharing Models

Login &
Session
Security

APIs
&
Integrations

Custom Code
&
Automation

Experience
Cloud
Exposure

System
Configuration
& Updates

Things We Find

Users with more
access than
they should have

Sensitive data
exposed through
sharing settings

Legacy configs
that nobody
owns anymore

APIs that are
not properly
secured

No Fluff. No Giant SOW.

Just practical value from a team that knows Salesforce.
