▼ Code (8)

Action	Component Name	Parent Object	Component Type
Create	LTA_Weather		Apex Class
Create	LTATW_TEST_Utils		Apex Class
Create	LTATW_Utils		Apex Class

Approve third party access

Lets Talk About The Weather, connects to a live weather information service to get up to date weather information for your records. The only information it sends is the City and Country for the current record you are viewing, it then receives back the weather report for that city.

You must select "Yes, grant access to these third-party web sites"

Approve Third-Party Access

 This package may send or receive data from third-party websites. Make sure you trust these websites. [What if you are unsure?](#)

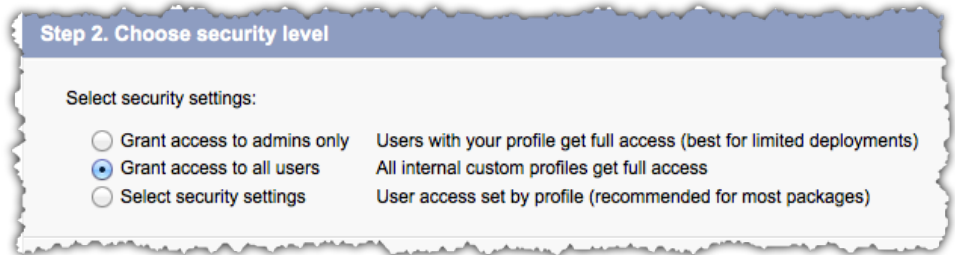

Website	SSL Encrypted
api.openweathermap.org	<input type="checkbox"/>

Yes, grant access to these third-party web sites

Security level

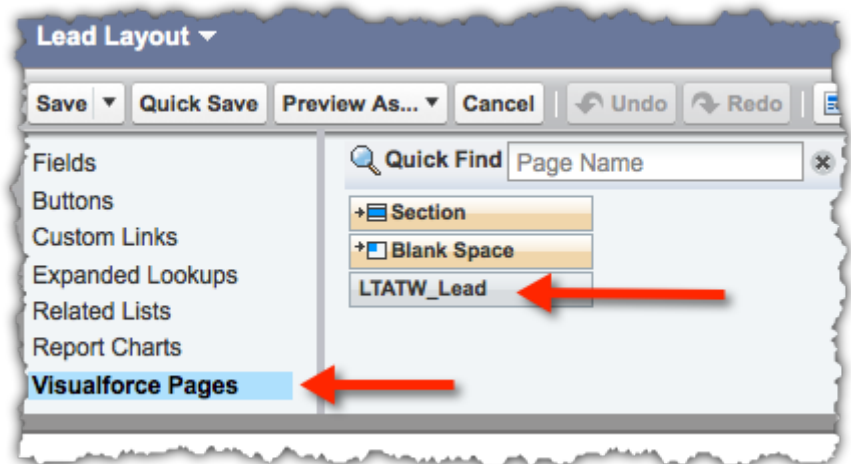

The components that are installed need to be available to all users. Set the security level to “Grant access to all users”

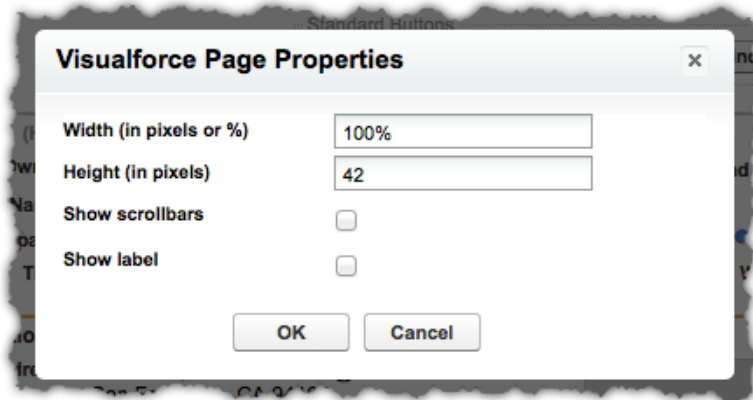

Edit page layouts

You need to edit page layouts for Account, Contact and Leads, to add the Lets Talk About The Weather Visualforce Page element onto the pages. The elements are named LTATW_Lead, LTATW_Account and LTATW_Contact for each object.

Drag the LTATW_Lead element onto the page and position as required then edit the properties of the Visualforce element to adjust its size.

By default it is set to 200 pixels high, we should change the height to 42 pixels. We do not need to show the scrollbars or the label.

Save the page layout once positioned, and repeat this process for all: Lead, Account, Contact.

Example page layout

Address Information	Address Suite 300, The Landmark @ One Market San Francisco, CA 94105 US	LTATW_Lead
Address Information (Header visible on detail only)	Billing Address Suite 300, The Landmark @ One Market San Francisco, CA 94105 US	LTATW_Account
Address Information	Mailing Address Suite 300, The Landmark @ One Market San Francisco, CA 94105 US	LTATW_Contact

If you have multiple page layouts for each object, be sure to update these as well.

Installation is complete!

Enjoy... Talking About The Weather! ...
