

ABOUT

Simplus exists to make complex things simple.

THAT'S WHAT WE DO.

Leaders in CRM

As a Platinum Salesforce Partner and Gold Oracle Partner, we use our underdog spirit to work relentlessly until we reach a simple solution to every complex problem. We have worked in every industry and refined our consulting skills to a point where there is no CRM problem too big or too small for our expertly certified consultants.

Leaders in Quote-to-Cash

We are leaders in the quote-to-cash space—we know it like the back of our (collective) hand. If there was a fan base for CPQ, we'd be the captains. We believe quote-to-cash is the future of selling across all industries, and we're excited to show others just how to do it, with expert implementations, expert advisory references, and expert hands-on training.

Leaders in Integration

We know how to integrate with third-party apps and systems, from large-scale ERP data migration projects to simple plugins. We're all about creating one single source of truth, one perfectly streamlined repository, to make selling, signing, buying, approving, discounting, whatever you need to do-ing... easier.

That's the Simplus promise.

WE MAKE COMPLEX THINGS SIMPLE
